Welcome to the student project assignment system for BADM500: Bachelorprojekt i datalogi. The system collects students' preferences towards topics and distributes students to project teams according to preferences and team capacities.

If you are enrolled in BADM500: Bachelorprojekt i datalogi, then you can log into the system via SDU Single Sign-On to get access to more detailed instructions and to submit your preferences.

If you encounter problems with this system, report them to marco@imada.sdu.dk.
